

The following publicly-listed locations provide **no-cost** Take Home Naloxone (THN) kits and overdose recognition and response training to community members. The eligibility for THN kits has expanded to include individuals who:

- **Use substances, or have a history of substance use**
- **Are likely to witness and respond to an overdose, including family and friends of people who use substances**

**Note:** Healthcare workers are not eligible for kits through the THN program and should contact their employer.

The **Facility Overdose Response Program** (naloxone administration supplies) is available for community organizations such as shelters, friendship centres, drop-ins working with people at risk of overdose, to learn more:
