

# Library Services

How can we help answer your question?

## RESEARCHER

Get an expert researcher on your team! Complete the [Literature Search Request Form](#) or email a library staff member with your question. A librarian will work with you to complete your search. You will get a full list of citations on your topic for you to review and request.

## MENTOR

Let us show you the ropes! Library staff will walk you through the process of using the databases to find answers to your questions. This can be done online, in person, one on one or in a group setting. We're here to help you learn more about using evidence-based information. Contact [library@fraserhealth.ca](mailto:library@fraserhealth.ca) to get started.

## SUPPORTER

You've found the research, but now need access to the full-text information. Our library technicians are magic at finding these items through our journal subscriptions and North American interlibrary loan system. We get the information at no cost to you. Send your citation list to a library staff member or [library@fraserhealth.ca](mailto:library@fraserhealth.ca).

# Still not sure? ASK!
