Speed Networking Event

Join us for a lunchtime meet-and-greet with your fellow Research Week attendees.

Attendees will have the opportunity to mingle virtually via a facilitated format. This speed networking event is an opportunity to make research partnerships, meet potential collaborators, or simply learn more about the diverse world of research and evaluation.

This event is open to all (including patient partners and the public), and can be attended separately from other talks. This event will not be recorded.

Isolating Advancements in Equity

Sept. 23, 2021- DAY 4

Speakers:

- Aamir Bharmal
- Tannis Cheadle
- Samantha Tong
- Christina Fung
- Bev Pomeroy
- Marika Sandrelli
- Margo Pearce
- Stephen Thomson

Moderator: Michel White

Talks will focus on the importance of equity initiatives in COVID-19 research, including collecting race-based data, the impact of patient engagement, and the application of trauma and resiliency informed principles in research and evaluation.

Locking down on Evaluation Lessons Learned and Findings
