

### Research Institutional Overhead Collection Process Q & A

#### What does the institutional overhead collection schedule look like?

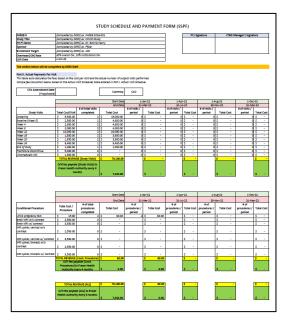

Starting April 1, 2022, the Department of Evaluation and Research Services (DERS) will collect the overhead fees every April, August and December for study visits/procedures that occur during the period of December through March, April through July, and August through November, respectively.

To facilitate the invoicing process and to increase transparency of overhead fees for both DERS and the principal investigators, DERS will use either the Clinical Trial Management System (CTMS) report or the Study Schedule and Payment Form (SSPF) to calculate the overhead fees for each period. Unless the study has been exempted by DERS, all sponsored research studies (both industry and grant-funded studies) will be required to use the CTMS. Any study that is not entered in the CTMS is required to complete the SSPF.

#### How does the SSPF work?

DERS will send the principal investigator and the research team the SSPF template prefilled with the study visit schedule and budget as indicated in the research agreement once the Letter of Authorization to Conduct Research (LOA) has been issued. Throughout the study, the principal investigator or their delegate must complete this form to record completed subject enrollment and study visits, including screen-failed subjects, unscheduled visits and conditional procedures in the Study Schedule tab of the SSPF.

FHREB #	(completed by	DERS) ex. FHREB	2016-001			1				
Study Title	(completed by DERS) ex. COVID-Study

Every April, August and December, DERS will collect the updated SSPF

Figure 1: SSPF Study Schedule Tab

Figure 2: SSPF Overhead Collection Tab

forms from the principal investigator to calculate the institutional overhead fee using the calculation in the Overhead Collection tab of the SSPF.

A new Overhead Collection tab will be created for each amendment to the budget.

Please contact <u>research.contracts@fraserhealth.ca</u> if you have any questions regarding the completion of the SSPF.

## How does DERS use the CTMS to calculate the overhead fees?

For studies using the CTMS for study management, the principal investigator and the research team will update subject enrollment and study visits in the CTMS throughout the study.

Every April, August and December, the CTMS coordinator will generate a CTMS report (*Study Financial Detail – Tabbed Export report*) from the system to calculate the institutional overhead fee.

### How to add your study to the CTMS?

Fraser Health requires all funded studies (including both industry-sponsored and grant-funded trials) to be added to the CTMS. Please complete the CTMS Intake Event Form in ROMEO to add your study to the CTMS. The CTMS Coordinator will create the study template once the LOA has been issued.

Please contact <a href="mailto:CTMS@fraserhealth.ca">CTMS@fraserhealth.ca</a> if you have any questions or issues with the CTMS or visit <a href="mailto:CTMS">CTMS</a> <a href="mailto:SharePoint">SharePoint</a> for resources.

# What does the invoicing process look like?

Once DERS receives the completed SSPF or CTMS Report, Figure 3: CTMS Report

DERS will calculate the institutional overhead fees and send a PDF copy of the SSPF or CTMS report for both the principal investigator and the Manager, Clinical Trials and Business Development to review and sign.

DERS recognizes that there may be circumstance where the funds from the sponsor/funder are not available until the sponsor has paid. Please indicate in the PDF copy of the SSPF or CTMS report the amount you will be paying at this time.

Once DERS receives the signed report, the Fraser Health Treasury will issue the invoice to the principal investigator and/or research site. The principal investigator and/or research site must submit the payment to Fraser Health's Treasury.

Please contact Raman Sran, DERS Program Assistant (<u>Raman.sran@fraserhealth.ca</u>) with any questions regarding the invoices.

# What if the budget is in a foreign currency?

If the budget is in another currency besides Canadian dollars and the study is in the CTMS, DERS will calculate the institutional overhead fees for study items that have been paid by the sponsor and will use the same exchange rate applied on that sponsor payment.

If the study is not in the CTMS, the Fraser Health treasury department will use the exchange rate on the day the invoice is being issued.

#### **Questions?**

Please contact Patrick Altejos, Manager, Clinical Trials and Business Development (<u>Patrick.Altejos@fraserhealth.ca</u>) with any questions or concerns.
