Frequently Asked Questions

Will it work with my browser?
Internet Explorer and Firefox WILL work.
Chrome will NOT work.

Can I comment on a news story?
No. This is a copy of the site, not the original. Comments can not be synchronized to the original site, so they are not permitted here.

Why can't I get to Job Postings, Pixalere, etc?
These applications are located inside our network. For security and privacy reasons, they are not available via FH Anywhere.

Why don't I see today's news articles?
This is a copy of FH Pulse, it's not the original. This copy is refreshed twice a day. Check back later for today's news articles.

Why can't I fill out a form?
For InfoPath forms to work, both InfoPath and a compatible email program must exist on the PC you are using. You may have to wait until you're at a workplace PC to fill out the form.

Why can't I open a spreadsheet?
The appropriate version of Excel must exist on the PC you are using. You may have to wait until you're at a workplace PC to access that spreadsheet.
