

As a child care provider, ask yourself the following questions once a month:

Physical Facility, Equipment and Furnishings

Do we make sure the physical facility is clean and safe?

Emergency Management

Do we prepare staff and children for emergencies?

Staffing

Do we make sure all staff has the training and education certificates they need?

Policies and Procedures

Do we make sure staff knows what to do in every situation?

Care and Supervision

How do we care for children and keep them safe?

Program

How do we help children to learn?

Medication

How do we make sure that medication is given safely to children?

Nutrition and Food Services

How do we make sure children are given healthy meals and snacks?

Hygiene and Communicable Disease Control

How do we help stop the spread of germs?

Records and Reporting

Do we keep all the records we need?

Child Care Links

Linking you to the Child Care Licensing Regulation

There are minimum standards all licensed Child Care Facilities must meet by law. The Child Care Licensing Regulation is the legislation that tells us what these standards are.
