

# During your COVID-19 appointment

You will meet a few people who will **verify** your appointment and check you in to the clinic. Then you will be asked questions to make sure it is **safe** for you to receive the vaccine.

You will receive the vaccine in your arm.  
Be sure to wear a **short sleeve shirt**.

You will wait **15 minutes** in an observation area after receiving the vaccine and then you can leave.

You will have the option to receive a paper and digital copy of your immunization record card.

Register for **Health Gateway**, where your digital immunization record card will be available only after you receive the vaccine.

Your immunization record will be also be stored in the online provincial database, accessible to you, public health and your doctor.
