Prenatal through School-Aged Populations

January 2020

These resources are provided to you by the Registered Dietitians from the Fraser Health Population & Public Health Nutrition program.

Why are we providing this list of resources to you?

There are so many sources of nutrition resources available on the internet. We want to ensure that you have evidence-based resources available in Fraser Health. You are encouraged to share these resources with the families you work with.

How are these resources accessed?

Resources are hyperlinked in the list below, or you can visit the [Fraser Health Patient Education Catalogue](#) website and type in the name of the resource. Feel free to share the links with families or download and print copies. Many resources are available in other languages. The link to each resource will tell you the languages available.

For more information from Fraser Health go to:

- Pregnancy: www.fraserhealth.ca/pregnancy
- Infant and toddler: www.fraserhealth.ca/feedingyourchild
- Schools: www.fraserhealth.ca/schoolhealth
- FH news and blogs: www.fraserhealth.ca/news

You can also follow Fraser Health on social media:
