

ARE CHILDREN IN YOUR COMMUNITY ADEQUATELY PROTECTED?

Percent of 2-year olds in Hope immunized against specific diseases, fiscal year 2024^{1*}

UP-TO-DATE 2-YEAR OLD IMMUNIZATION RATES¹

↑ ABOVE AVERAGE ↓ BELOW AVERAGE

FISCAL YEAR*	HOPE	FRASER HEALTH
2024	45.9%	70.8%
2019-2023 5 year average	61.1%	71.6%

IMMUNIZATION COVERAGE RATES

AMONG SCHOOL-AGE CHILDREN 2024/25 school year²

↑ ABOVE AVERAGE ↓ BELOW AVERAGE

GRADE	DISEASE	HOPE	FRASER HEALTH
GRADE 6	HPV	42.9%	65.7%
GRADE 9	PERTUSSIS	43.6%	71.3%
	TETANUS/DIPHTHERIA	43.6%	71.6%
	MENINGOCOCCAL	42.3%	73.0%
	HPV	51.3%	70.9%

Grade 6 and 9 students are offered HPV (Gr 6), Meningococcal (Gr 9), Tdap (Gr 9), and all other missing vaccines. During 2024-25 school year, HPV still followed a 2-dose schedule for immunocompetent individuals aged 9 to 20. In the 2-year old and school-age children coverage tables above, green indicates community coverage is above the Fraser Health average and orange indicates community coverage is below the Fraser Health Average.

MOST KIDS BEGIN THEIR IMMUNIZATIONS BUT FALL BEHIND SCHEDULE

94% OF 2 YEAR OLDS in Fraser Health receive at least some immunizations³. With each scheduled visit, the number of children receiving their vaccines on time decreases. By 18 months of age, only 48% of Fraser Health children get their vaccines on time, leaving most children under-protected against many diseases³.

■ LATE receipt of vaccine
■ ON TIME receipt of vaccine

HUMAN PAPILLOMAVIRUS INFECTION (HPV)

BC Target: 90% of youth immunized for HPV by 2026⁴

71%

Grade 9
Up-To-Date
on HPV⁵

The HPV vaccine protects against HPV infections that can cause various types of cancer⁵. The vaccine works best when given at a young age⁵. In British Columbia, it is offered and provided for free to students in Grade 6 and older.

IMMUNIZATION RECORDS

65%

School-age children with complete immunization records²

Having complete immunization records helps public health control the spread of diseases that vaccines can prevent.

WHAT CAN YOU DO TO SUPPORT IMMUNIZATIONS IN YOUR COMMUNITY?

- ✓ **Talk to your friends and family** about the importance of staying up-to-date on immunizations.
- ✓ **Check if your family's immunizations are up-to-date** by reviewing your records on Health Gateway.
- ✓ If you were already immunized, but the vaccine is missing from your record on Health Gateway, **submit the missing record to Fraser Health Public Health.**
- ✓ **Book an appointment** to get any other immunizations that you have missed.

For more information, go to fraserhealth.ca/immunizations or call your local public health unit.
