

The following table provides guidance on the frequency of Infection Prevention and Control (IPC) audits in Long-Term care settings during prevention, enhanced monitoring, VRI, GI Outbreaks and Scabies Clusters.

| IPC Audits | Frequency | | | Compliance |
|---|------------|---------------------|---|--|
| | Prevention | Enhanced Monitoring | Outbreak/Cluster | |
| Hand Hygiene Audit | Monthly | Weekly | Daily | 80% (if <80% repeat weekly during prevention) |
| PPE Audit | Monthly | Weekly | Daily | 100% |
| Declutter Audit | 6 months | 6 months | As per IPC discretion during the outbreak/cluster | N/A |
| Environmental Audit (e.g. glo-germ, ATP) | Monthly | Weekly | 2x/week | 90% |
| Soiled Utility Audit | Optional | Optional | Optional | N/A |
