

## Tool 28: Staff Illness Report and Tracking Form

This line list is used to monitor respiratory illness among staff in your Care Community for internal management. Complete the Facility Details tab and Staff List tab as appropriate.

A copy of [Tool 28 Staff Illness Report and Tracking Form](#) is located on the Fraser Health website. You can download and save a copy of the excel spreadsheet to your desktop to begin tracking staffing cases.

**This list is not required for reporting to Public Health but information on current and prior staff cases may be requested on an ad-hoc basis.**
