Type of request

Please select the type of education you are requesting and provide a description.

Consultation

Please describe

Presentation

Workshop

Other

Target audience

Please include approximate numbers for each target audience (complete all that apply). Define any "other" individuals (i.e. persons with lived experience, individuals likely to witness an overdose, etc.)

Staff

Clients

Health care professionals

Other

Timing

Please select all days/times of day that may work for your organization. If there is an ideal date / time, please include this in the description section, and we will do our best to accommodate this. The more flexibility you provide, the sooner we are likely to be able to complete your request.

Day

Please Describe

Evening

Weekday

Weekend

Preferred venue

On occasion, Fraser Health delivers pre-booked regional training sessions to multiple staff / agencies together at sites across the region. If you are willing to attend one of these sessions, it may significantly reduce the wait time for training. If you prefer to have training at your own site, you will be responsible for securing an appropriate venue.

Fraser Health site

Other venue (if applicable)

Other venue

Either of the above

What do you hope to get out of this training? What are your intended outcomes?

Does your organization serve anyone at risk for overdose?

Please Explain.

Yes

No

Have staff at your organization ever been asked to respond to an overdose while at work?

How often has this occurred in the last year?

Yes

No

Does your organization have an overdose policy?

Please Explain.

Yes

No

Do your staff have CPR and/or first aid training?

Please Explain.

Yes

No

How does your organization approach substance use service needs and how do you engage in overdose conversations with individuals, families and communities?

How does your organization currently access naloxone?

Check all that apply.

- Pharmacy
- BC CDC Facility Overdose Response Box program
- Take-home naloxone for clients
- Does not currently access naloxone but plans to access it soon
- No plans to access naloxone
- Other

Additional information

E.g. Considerations around learning, language or accessibility, equipment, etc.
