\*Please email to request for the upcoming month only.

You will receive a reply with a timeslot (see schedule) and a Zoom link. On that day, use the link to log in at the time you have been given, and the Speech-Language Pathologist will see you and your child over Zoom.

Your child does not have to sit in front of the screen and talk to the Speech-Language Pathologist. Your child's communication skills can be screened while they interact and play with you.
