

Construction Notice for Neighbours

March 31, 2021

## East Columbia St. Paving April 6 - 9

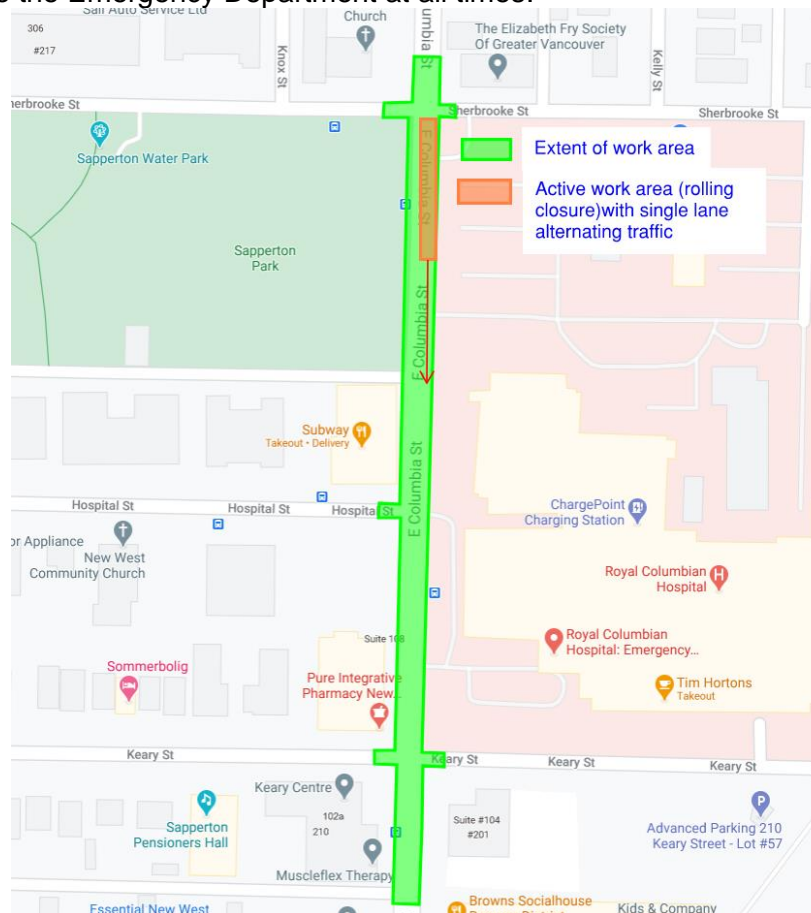

### What's happening, where, and when

We will be repaving sections of East Columbia St. now that the installation of a new storm line is complete.

**Milling and paving will take place over two days during the week of April 6, depending on the weather.** Work will extend from north of Sherbrooke St. to the lane between Simpson St. and Keary St. There will be no parking on East Columbia St. while paving is underway and traffic will be reduced to single lane alternating, controlled by Traffic Control Personnel, in the immediate vicinity of the roadworks equipment. Expect some delays.

Construction hours will be Monday to Friday. 7 a.m. – 8 p.m. (except holidays), and Saturday 9 a.m. – 6 p.m. Dates and times may change.

There will be access to the Emergency Department at all times.

**Businesses on East Columbia St. remain open. Traffic control personnel are on site. All sidewalks and crosswalks remain open. The hospital parkade is accessible via Keary St. Please refrain from using local streets for non-local traffic. The project team is coordinating this work with the construction project at 408 East Columbia St.**

**We apologize for the inconvenience.**
