

## Sent on behalf of the Fraser Health Integrated Long-Term Care and Assisted Living Services

May 2<sup>nd</sup>, 2024

### **\*Revised\* Request to Change Designated Most Responsible Provider Form - Long-Term Care Communities**

- The attached form is for all FH Affiliated and Owned and Operated LTC care communities. The goal of this form is to ensure the following:
  - The Resident's Most Responsible Provider (MRP) information is up to date.
  - Resident's information is shared with the correct MRP in a timely manner (e.g., if resident is transferred to acute care there is appropriate notification and communication with the MRP in long-term care)
- The form is added to [Fraser Health Intranet](#), Extranet, Form Imprint, and Print shop.
  - For **Owned and Operated Care Communities**: this form has been added to the admission package
  - For **Affiliated Care Communities**: please add this form to your admission package/process (see attached)
- For more information, contact: Chelsea Archer, Leader, Physician Services, Long-Term Care & Assisted Living [Chelsea.Archer@fraserhealth.ca](mailto:Chelsea.Archer@fraserhealth.ca)

### **\*NEW\* RAI MDS 2.0 Education for Long-Term Care (LTC) Leaders**

- It is important that LTC leaders have knowledge of the RAI-MDS 2.0 to support data integrity, collaborative decision making, and determine opportunities for improvement using the data.
- The Regional Clinical Nurse Educators have developed a two-part webinar series to support LTC leaders with refreshing and expanding their knowledge of the tool in May and June 2024.
  - Session 1: Coding Overview and Common Coding Errors, Learning Hub Course #33642
  - Session 2: Outcome Scores and KPIs, Learning Hub Course #33643
- See attached KYI for more details and the link to the courses found on the Learning Hub
- If you have any questions or want further information, email Michelle Sprangers ([michelle.sprangers@fraserhealth.ca](mailto:michelle.sprangers@fraserhealth.ca))

### **\*NEW\* W.A.S.A. Matter with your Wound Care?**

- Wounds have a significant impact on resident quality of life and as such, has been identified as a regional Fraser Health priority. Preventing and managing wounds is an issue that you, our care community leaders, have identified to be important to you.
- The Regional Clinical Nurse Educators and Regional Wound Care Clinicians have developed a half day, in-person education session focused on the fundamentals of wound care that we are excited to invite you to attend.
  - When: June 4<sup>th</sup>, 2024, 0830 - 1300
  - Where: Oasis auditorium, Elim Village
- Each care community is invited to bring one or two clinical leaders to participate and share knowledge. There will be coffee, tea and some light snacks.
- Please see attached invitation for more details and to register for the event.
- If you have questions, reach out to Dominique Parmentier ([dominique.parmentier@fraserhealth.ca](mailto:dominique.parmentier@fraserhealth.ca))
