

Oct 3rd, 2024

Sent on behalf of the Fraser Health Integrated Long-Term Care and Assisted Living Services

NEW* *Respiratory Illness Season 2024-2025

- Tool 27 Resident Illness Reporting and Tracking forms will shift to email submission to Public Health.
- This change will occur after the RI/GI illness flu school education which will take place on Oct 10th, 2024.
- Tool 27 will no longer be submitted via Cerberus following flu school.
- Training and resources will be provided at the RI/GI (flu/school) education session on Oct 10th
- Care Communities are encouraged to start thinking about local processes that will be needed to support email submission
- For any questions, please contact: CDPHNs@fraserhealth.ca

***NEW* LTC/AL Real time Resident Experience Surveys- Call out for shared working group**

- The Quality Expansion team is looking for 1-2 representatives from each geographic area (North/South/East) for LTC owned and operated/affiliated and Assisted Living to join 3-4 sessions to review and refine survey questions.
- The purpose of the review is to ensure survey questions and results support quality improvement activity at both the local care community.
- The sessions will be scheduled between October – November 2024.
- Please reach out to raymi.komal@fraserhealth.ca if you are interested.
