NEW Changes to distribution of the Performance Monitoring Scorecard (PMSC) – effective September 21st, 2023

- The PMSC has been produced by Fraser Health (FH) for > 5 years with the intention of providing partners visibility to 12 key indicators.
- Following extensive consultation with our LTC partners (both Affiliates and O/O) and other FH stakeholders, we have received approval from the LTC Network to decommission this report as of September 21st, 2023.
- FH is currently developing a new cloud-based platform that will include these quality metrics (along with others).
- For O/O sites, the report will no longer be a product on the Fraser Health Reporting Library.
- For Affiliate sites, as an interim solution, Quality Partners will be provided with this data when there is a new release from CIHI (every quarter).
- Please see attached KYI for more details
- If you have any questions, please contact Bindu Mohan (Evaluation and Performance Lead, Seniors Community Complex Care – bindu.mohan@fraserhealth.ca)
