

Fraser Health Long-Term Care & Assisted Living MicroResearch Workshop

FREE Hybrid (online/in-person)
Nov 15 to Dec 6, 2024
weekday mornings/lunch hour

Interested in Community Based Health Research?

- *Learn how to design and conduct a health research project and how to write a proposal.*
- *Research training and support from experienced teachers and one-on-one team coaching.*
- *Address health issues within your community by bringing your own ideas to the table.*
- *Access to web-based research curriculum for continued learning.*
- *Collaborate with other professionals and community members in your area.*
- *Be eligible for a research grant to implement your project.*
- *Learn how to publish your research results and make a difference in your community!*

***“MicroResearch was eye-opening.
I am positive that it will change my life.”***
