

CALL FOR ABSTRACTS

West Coast Conference on Aging Equity Influencers: Transforming Healthcare for Aging Populations

Friday, May 31 – Saturday, June 1, 2024

We are delighted to announce that the **2024 West Coast Conference on Aging** will be held at the Pan Pacific Hotel and Conference Centre in downtown Vancouver, BC on May 31 and June 1, 2024.

With an unwavering commitment to understanding and addressing inequities within aging care experiences, this conference will be a catalyst for transformative thinking and will engage attendees in stimulating ideas, essential conversations, and a shared mission to promote wellness for all.

The primary emphasis of the conference will address the root causes of inequities and seek ways to enhance our care systems and methodologies for everyone. We welcome submissions that align with the conference theme of equity, especially those that directly engage with and investigate contemporary issues, emerging populations, innovative services, and new research findings.

Key areas of relevance include supporting populations that have been traditionally underserved by our existing systems and approaches. We specifically invite submissions with a focus on Indigenous wellness, anti-racism, diverse gender and sexual identities, cultural safety, and other topics related to inequities in the care of seniors and in services and approaches for aging populations.

We invite [submissions](#) for
concurrent sessions or
poster presentation.

Submit by:
Monday, February 19, 2024

Notification of Acceptance: February 29,
2024. The Conference Committee will review
abstracts and notify all applicants by Feb 29.
