Sent on behalf of the Fraser Health Integrated Long-Term Care and Assisted Living Services

NEW LTC Respiratory Illness (RI) Toolkit webpage

- FH LTC/AL in partnership with Public Health are shifting away from specific COVID-19 toolkit to general Respiratory Illness guidance within our Long-Term Care (LTC) and Assisted Living (AL) settings.
- To support the transition to using the Respiratory Illness toolkit, you are invited to participate in an online survey to provide feedback of the use and transition of Respiratory Illness Toolkit and COVID 19 Toolkit by LTC and AL staff.
- Survey results will be inform the development of the Respiratory Illness toolkit website content
- **Please complete the survey by Dec 9th.**
 - Link to survey: <https://fraserhealth.checkbox.ca/respiratory-illness-toolkit>

NEW Access Care and Transitions (ACT) Request re: Bed Management

- Thank you to all of our valued partners for keeping your beds open and working to reduce vacant bed turnaround time. It is thanks to your efforts that we continue to have capacity to meet the care needs of new residents and their families across our region.
- We are asking all operators to continue to work to keep all beds open and reduce vacant turnaround time.
- We will be reaching out to all sites where beds are closed >48 hours to discuss reopening plans.
- The Fraser Health ACT team appreciates your continued partnership, consideration and support.

UPDATE Updates to tools for Medical Assistance in Dying

- Please see updated resources for Medical Assistance in Dying
- For owned and operated LTC access MAiD FH Pulse Page: [Medical assistance in dying \(MAiD\) staff resources](#)
- For Affiliated LTC & AL please refer to attached documents.
- Updates to the tools include:
 - Addition of Assisted Living to the title
 - Minor revisions to wording
 - Updated links
 - Inclusion of information related to Waiver of Final Consent in roadmap.
