

BCIT: Leadership in Long-Term Care

What is happening?

The BCIT 13-week Long-Term Care Facilities Management course is once again being offered this fall, commencing on September 12, 2023 and is now open for registration. To register for this part-time, online course, visit <https://www.bcit.ca/study/courses/busa1500> or contact Kim_Petkov@bcit.ca for more information about registration.

How does this affect you?

More than ever before there is a need to ensure that leaders in the long-term care sector are prepared for the challenges they face in providing exemplary care.

The reasons for creating and offering this practical Long-term Care Management course are simple:

1. Long-term care delivery is complex, involving multiple stakeholders, a variety of processes and the necessity for leadership expertise.
2. Leaders need a solid foundation to ensure their success in long-term care.
3. Quality resident care is related to the clinical leader's skill, ability, and tenure.
4. Retaining leaders in long-term care is more successful when those same leaders feel confident and supported in their role.

What will you learn in this course?

- ✓ attributes and challenges facing the geriatric population
- ✓ working collaboratively with families
- ✓ understanding and managing risk
- ✓ creating a healthy workplace culture
- ✓ legislation related to the industry
- ✓ working with organizations that support long term care
- ✓ implementing a quality approach
- ✓ conducting investigations
- ✓ maintaining wellness
- ✓ ethics and values promoting resident centered care
- ✓ implementing change in practice

What are students saying about the course?

"The BCIT long-term management course provided me an opportunity to network with other people in the field, allowed me to expand my knowledge base in long-term care overall and gave me a valuable experience in seeing things from the lens of different disciplinary leaders. I would definitely recommend this course to new long-term care leaders."

“First I want to say that I really enjoy the course, I am learning tremendously which will really help me in my current job.”

“I recommend this course for new DOCs because it provides a clear picture of long term care. The course is beautifully laid out so that each section gives an understanding of different components of long-term care. The course also gets into details about building a positive culture and inclusive community. Without any doubt I can clearly say that this course helped me to understand the new DOC role better.”

“The course is very informative, and I have recommended it to the DOC I interviewed”

“This course helped me a lot in understanding the details of LTC.”

Who are the instructors?

The BCIT Long-term Management course was co-developed by and is now co-facilitated by experienced long-term care leaders who are passionate about resident and family centered care. Through their extensive experience they identified the need to offer support to new leaders.

- **Meet Catherine Kohm**

Catherine is an RN with a BA in sociology and master’s degree in education. She has worked in the community as a visiting nurse and managed her own health care business, for several years. Catherine then transitioned to the acute care sector where she managed a variety of portfolios from social work to the emergency department. Her next position was as an Executive Director of a campus of care for seniors followed by work with Fraser Health Authority to enhance the care of seniors. She has published and presented on a variety of health care issues and served on the faculties of medicine and nursing at the University of Toronto. Semi retired, Catherine provides coaching to leaders in long-term care nationally as well as teaching at BCIT.

- **Meet Michelle Merkel**

Michelle Merkel has been dedicated to the field of long-term care for almost her entire 37-year career, serving in a variety of roles that give her an in-depth insight to the industry. Along her journey she has worked as a Volunteer, a Health Care Assistant, a Nurse, a Clinical Nurse Educator, a Director of Care, a Manager, a Project Leader, and a Quality Improvement & Patient Safety Consultant. She has experienced being a leader in not-for-profit, for profit, and health authority owned and operated long-term-care homes in both Saskatchewan and British Columbia.

Michelle has a Bachelor of Science in Nursing degree from the University of Saskatchewan and a Master’s degree in the Science of Administration (Healthcare Concentration) from Central Michigan University. Michelle has served on a variety of steering committees, successfully led major initiatives,

provided presentations to both large and small groups, and is passionate about education and life-long learning.
