

Attention Clients and Families

New! Health Care Support Workers

Additional home support in community settings

What is happening?

We are adding Health Care Support Workers to our team.

Health Care Support Workers are training to become certified Community Health Workers and will provide additional support to clients and families in their homes.

What does a Health Care Support Worker do?

- ✓ Make beds
- ✓ Prepare light meals
- ✓ Set up selected equipment
- ✓ Help with recreation activities
- ✓ Provide companionship
- ✓ Provide light housekeeping

Health Care Support Workers are supervised by your care support team.

How might this affect you?

You will see new staff in your home. These new workers will allow us to spend more time with you and provide you with additional care.

For more information

Please call your LPN Supervisor.
