

IC5: 0310 Appendix I Glove Removal

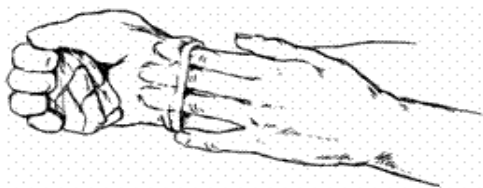

1. Grasp the outside of one glove, pull glove forward from wrist to finger tip turning the glove (inside out) as you pull it off and away from you.

2. Hold the glove just removed in your other (gloved) hand.

3. With the ungloved hand, insert fingers inside the wrist band of the remaining glove.

4. Peel the glove forward as in step one as you turn the second glove inside out.
