

## Construction Notice

July 13, 2017

Expect disruption on Keary St. near Brunette Ave. July 15, 17, and 18.  
Also watch for new speed bumps in the hospital's east lane

**1** On Saturday, July 15<sup>th</sup>, Monday July 17<sup>th</sup> and Tuesday, July 18<sup>th</sup>, the westbound lane of Keary from Brunette Avenue to the hospital's parkade entrance will be disrupted for about 2 hours, starting around 9:00am. Large cranes and trucks will be adding and moving trailers and construction storage containers into the southeast exterior corner of the hospital.

**Be careful as you turn right from Brunette Avenue onto Keary Street** as this area will be more congested and vehicles may be backed up along Keary Street on the three days. Alternatively, use East Columbia Street to access Keary Street and to avoid much of the congestion.

**Obey all construction flagpersons.** They are there for your safety and protection and will be directing alternating traffic, and pedestrians.

**Anvil condominiums will still have access to their parkade.**

**2** Within the next few weeks speed bumps will be added to the south part of the hospital's east service lane (between Keary Street and Allen Street) to improve construction worker and pedestrian safety. Drivers will need to slow down if they use the hospital's lane to access Allen Street or Keary Street.

**Questions** Email [feedback@fraserhealth.ca](mailto:feedback@fraserhealth.ca) with questions or concerns.
