

Construction Notice

Aug 28, 2018

Keary Street's north (westbound) lane closed near Brunette Avenue on Thursday, August 30 7am-7pm

What's Happening The north (westbound) lane of Keary Street will be closed between the hospital's private service lane and the hospital's parkade on Thursday, August 30 from 7am to 7pm while large cranes remove some trailers from that area.

Impact to You Traffic will be single lane alternating until 7pm on Keary Street near the area of the lane closure.

Be careful as you turn right from Brunette Avenue onto Keary Street as this area may be congested with vehicles backed up along Keary Street. Alternatively, use East Columbia Street to access Keary Street and to avoid much of the congestion.

Parkade entrances will still be accessible at Anvil Condominiums and the hospital.

Pedestrians will still have access to sidewalks on the south side of the street and to SkyTrain.

Obey all construction flag persons. They are there for your safety and protection and will be directing alternating traffic, and pedestrians.

Questions Contact 604.418.5326 or feedback@fraserhealth.ca with questions or concerns.
