

STARTING: Construction on Keary Street Between East Columbia Street and Brunette Avenue

Traffic pattern change: Entrance to Keary Street from East Columbia Street CLOSED for approx. 2 weeks starting Oct. 22 to Nov. 2. Use Brunette Avenue.

With construction on East Columbia Street completing, the work will now continue onto Keary Street. Excavation will be extensive, and more disruptive than first planned **which will impact your driving route**. **Please note:** this information is an update of what was communicated previously with some important changes.

What's happening, where, and when

From October 22, 2018 until early 2019, Keary Street will be excavated between East Columbia Street and Brunette Avenue in sections for a hospital IT and utilities pathway and City of New Westminster power. Two-way traffic will be maintained on East Columbia Street.

Construction hours: Mon. to Fri. 7am-8pm (except holidays), and Sat. 9am-6pm. Some after-hours work may also be required. Please note that dates and times may change. Expect **traffic delays and congestion** on and near Keary Street, and when entering/ exiting Keary Street.

The impact to you

NOTE! For the first two weeks of construction, from Oct. 22 to approx. Nov. 2, **access to Keary Street from East Columbia Street will be CLOSED.**

During these times, **vehicles can ONLY access Keary Street from the Brunette Avenue entrance (southbound lane)**. If travelling northbound, use East Columbia>Sherbrooke>Brunette.

AFTER NOVEMBER 2, the East Columbia Street entrance to Keary Street will open for most of the day with single alternating traffic, and overnight, but will **close daily from 3pm to 7pm**. The Brunette Avenue entrance to Keary Street will be open all day, but will close overnight. (Schedule may change at times.)

Sidewalks may at times be closed in sections on the north (hospital) side of the street, and may at times be disrupted on the south side of the street. Pedestrian access to SkyTrain will remain open. There may be delays or detours at times when crossing East Columbia or Brunette Avenue.

Car sharing parking spots will be moved. Check the provider's information for new locations.

The HandyDart passenger waiting area near Sapperton SkyTrain Station may be temporarily moved.

Patient drop off / handicapped parking for Royal City Medical Centre will be available in front of the building on Columbia Street. Access to the **current handicapped parking spots in the parking lot** will remain open.

The Anvil parking lot, Translink building and Royal City Medical Centre parking lots, loading dock and the hospital parkade along Keary Street will remain open. **However, for two weeks starting October 22**, drivers will need to enter and exit the parkades from **Brunette Avenue**. Drivers can access the **hospital parkade via Sherbrooke Street** as an alternate route.

After November 2, the entry and exit to the Keary Street parkades will alternate between East Columbia and Brunette Avenue throughout the day. At times, drivers may be directed to use Sherbrooke Street to access the **hospital parkade**, which will always be available as an alternate entrance/exit.

Some portions of street meter parking will be closed at times to accommodate traffic pattern alternations.

Everyone should expect disruption and frequent changes in access along the street. Please use caution and patience. Watch for signs, and please obey flag persons who are there to direct you safely around the construction. And, please keep our construction crew safe.

Thank you for your patience. We apologize for the inconvenience. Bird Construction will endeavour to minimize the impact of noise, dust, and disruption to neighbours in accordance with the City's regulations and [Good Neighbour Protocol](#).

For construction updates visit: www.newwestcity.ca or www.fraserhealth.ca. Please direct questions or concerns to 604.418.5326 or feedback@fraserhealth.ca. For urgent after hours issues related to this construction call 1.855.857.7075.
