

Construction Notice for Neighbours

June 13, 2018

BRUNETTE AVENUE DISRUPTED IN ALL LANES near Allen Street, at times, on Saturday, June 23, 7am-4pm

What's Happening For **ONE DAY ONLY**, traffic in all lanes and both directions will be stopped periodically, for about 2 minutes each time

Scope of Work/Area Affected On Saturday, June 23 all four lanes of Brunette Avenue will be disrupted for short periods as large trucks or a crane back into Allen Street to install large equipment onto the hospital's construction site.

About ten 2-minute interruptions are expected between 7am to 4pm, according to Bird Construction. (Date, times, and frequency are subject to change).

Impact to You Expect traffic to backup for short periods at times near Allen Street.

Access to/from Allen Street will NOT be possible via Brunette Avenue. Residents in Copperstone Condominiums who need to enter/exit their south parkade must use Sherbrooke Street (via the hospital's north service lane and the west half of Allen Street which will be accessible that day).

Pedestrians will still have access to sidewalks on Brunette Avenue and Allen Street, but watch for flag persons who may stop you for short periods while trucks are backing up or as cranes lift heavy equipment into the construction site.

Obey all construction flag persons who are there for your safety and protection.

We sincerely apologize for the inconvenience. Bird Construction and their contractors will endeavour to minimize the impact of noise, dust and disruption to our neighbours in accordance with the City's regulations and [Good Neighbour Protocol](#).

Questions Direct questions or concerns to 604.418.5326 or feedback@fraserhealth.ca.

Until July, hospital redevelopment construction notices will be hosted on the City's website at newwestcity.ca.
