Sent on behalf of the Fraser Health Integrated Long-Term Care and Assisted Living Services

***NEW* Clinical Practice Guideline: Prevention, Identification, and Management of Heat-Related Illness in Long-Term Care Homes and Dehydration SBAR for LTC**

- The goal of these documents is to provide guidelines for staff to prevent, identify and care for residents with heat-related illness in LTC homes.
- The [Clinical Practice Guideline](#) and [Dehydration SBAR](#) are available in the [Emergency Management – Extreme Heat Toolkit](#).

***NEW* P.I.E.C.E.S. Education LTC Communities (Owned & Operated and Affiliated)**

- P.I.E.C.E.S.TM education is coming to you and being offered to LTC clinical leads (e.g., Resident Care Coordinators, Directors of Care, and Clinical Nurse Educators).
- The program will be delivered virtually via TEAMS over two full days starting in September 2022
- P.I.E.C.E.S.TM provides health care practitioners with a practical, reflective and evidence informed approach to guide collaborative engagement, shared assessment and supportive care with older adults at risk or living with complex conditions and changes in behavioural expression.
- For more detail and registration information, [please see attached KYI](#).
